EPM	_____		

- a) General discomfort with sweating, pacing, getting up and down, elevated respiration and pulse.
- b) Pain often to the point that one leg or foot is non weight-bearing.
- c) Fever, nasal discharge, cough.
- d) Crack in the hoof wall along the side of the foot that may extend from the ground all the way up to the coronary band. May be more painful the farther up the hoof wall it extends.
- e) Swelling, heat and pain on the back aspect of the lower leg above the fetlock and below the knee accompanied by at least moderate lameness.
- f) Firm lump on the inside or outside of the cannon bone often with heat and pain, with or without lameness.

BEST HORSEPERSON TEST riders 14-21 2015

- g) Shifting joint pain sometimes accompanied by ataxia (not walking with the hind legs following the front legs properly and normally) or dis-coordination.
- h) Sudden unwillingness to move forward normally, especially after standing still briefly. Increasing levels of stiffness over a few minute period.
- i) Crusty or greasy skin and hair coat, possibly swollen and painful, often lumpy with hair loss.
- j) Difficulty exhaling completely. Often accompanied by cough with exercise and with a noticeable line along the diaphragm (at the bottom edge of the rib cage) when breathing.
- k) Nasal discharge and fever along with swelling at the jaw and throat junction even to the point of abscess.
- l) Heat and pain in both front and sometimes rear feet with accompanying rocking on the heels along with sometimes severe discomfort in walking.
- m) Squinting, tearing and possibly a visible "blue" spot on the surface of the eye.

Mark each statement as TRUE or FALSE.

- 1) Shoulder-in, leg yielding, and turn on the haunches are all LATERAL exercises.

TRUE FALSE

- 2) Square and Swedish OXERS are normal parts of most HUNTER classes 3' and higher.

TRUE FALSE

- 3) In JUMPER classes the TIME taken to complete the course is the only consideration in placing the class.

TRUE FALSE

- 4) Good quality HAY should be green, sweet smelling, clean and dry.

TRUE FALSE

- 5) Mares come in heat and can be bred twice per year.

TRUE FALSE

- 6) ETHJA, USEF, USET and the MacLay are equitation classes offering year end final competitions each year.

TRUE FALSE

- 7) Horses have two PEDAL or COFFIN bones in each foot.

TRUE FALSE
